**Old Stains? Old Odors?**

**2 YEAR OLD STAIN - GONE!** "I really didn't think that the product would remove carpet stains from 2 years ago, nothing else had. To my complete and utter amazement it did. I'm convinced that this stuff could remove any stain!"  
Monica S - CA

**8 YEAR OLD STAIN & "ODOR" - GONE!** "I started with a stain in our carpet 8 years ago. The stain gets refreshed weekly and has been cleaned with everything (including professionally). The result is a permanent (or so I thought) yellow stain and odor. Your product removed them both. I couldn't believe it!"  
Lorraine B - CA

**Carpet Replacement? STOP!**

"I have tried every product on the market. I thought the only solution was new carpeting. GET SERIOUS! not only lifted out all traces of those marks, I find my little Yorkies no longer return to those "anointed" areas. You saved me what I am sure would be a very costly replacement."  
Lauren R - NY

"...it is positively the best ever! Not only does it remove "fresh" accidents but also old dried up ones. My Sheltie and Siamese were both ill, including diarrhea and vomiting on a one year old carpet of light color. Thank you so much."  
Pegge M - FL

**GET SERIOUS! is the Answer!**

"This truly is an outstanding product. At 85 years 'young' I can't tell you how much I appreciate your product. My little poodle started having accidents and I wondered if I would have to put him to sleep. He is 11 years old and very lovable. Thanks to you I can keep him!"  
hi@eth K - FL

"I purchased your product from my vet. It is by far the best product for removing urine odors that I have ever used. I have tried nearly everything on the market, and the cabinet under my kitchen sink is mute testimony to that with a dozen or so nearly full bottles of ineffective product."  
Carolyn L - CA

**No other cleaner does *ALL THIS*!**
